30						

Greyhound Rescue is a small non-profit organization which finds forever homes for retired and non-racing greyhounds mostly in NSW and ACT. Greyhounds are known as the noble hound and live up to their name with elegant bodies, gentle, affectionate natures and seductive personalities. We also know them as 'velcro' dogs with their tendency to stick closely to the human members of their pack. They make excellent family pets – integrating happily with children and other pets. They are truly captivating and have engaging personalities that blossom in a secure home. Greyhounds do love a run but do not need a lot of exercise to keep them healthy and happy. A quick 'zoom' around the back yard and a daily walk meets their needs but they adapt well and enjoy longer walks in a variety of environments. Nor do they need a lot of space inside – but they do appreciate a comfy couch with space to stretch out. They are intelligent and very responsive to training. If you would like to find out more about fostering or adopting one of these truly amazing dogs please contact us; but be warned – greyhounds are addictive!
